

MONGOLISCHE TAGE 2006

MONGOLIA- 800th Anniversary

Symposium

Traditional Mongolian Medicine
Austrian – Mongolian Scientific Co-operations

April 4, 2006

Venue: University of Vienna, Kleiner Festsaal

Programme

- 9.00-9.20 *Opening*
H.E. Luvsandagva Enkhtaivan, Ambassador of
Mongolia in Austria
Univ. Prof. Dr. Brigitte Winklehner, President Eurasia-
Pacific-Uninet
Univ.Prof. Dr. Johann Jurenitsch, Vice President
University of Vienna
Ass. Prof. Dr. Christa Kletter, co-ordinator of the
University of Vienna
Univ. Prof. DDr. Kurt Kletter, co-ordinator of the
Medical University Vienna
- 9.20-9.40 *Scientific tracks from Mongolia to Vienna:*
An overview of the co-operation with the Department of Pharmacognosy, University
of Vienna.
- Samdan Narantuya
Vice President, Health Sciences University of Mongolia, Ulaanbaatar
Mongolian co-ordinator for the Austrian-Mongolian projects

- 9.40-10.00 *Traditional Mongolian medicine – an introduction with special reference to the liver disorders*
Tsendayush Damba
School of Traditional Medicine, Health Sciences University of Mongolia, Ulaanbaatar
- 10.00-10.20 *Mongolian medicinal plants – Botany and quality control*
Christa Kletter
Department of Pharmacognosy, University of Vienna
Dashzeveg Nyambyar, Enebishiin Ganbold
Institute of Botany, Mongolian Academy of Sciences, Ulaanbaatar
Damdinsuren Natsagdorj
Manba Datsan, Center for traditional Mongolian medicine, Ulaanbaatar
- 10.20-11.00 Coffee break
- 11.00-11.20 *How to trace chemical compounds in medicinal plants?*
Sabine Glasl
Department of Pharmacognosy, University of Vienna
Samdan Narantuya
Health Sciences University of Mongolia, Ulaanbaatar
Disan Gunbilig
Institute of Chemistry and Chemical Technology, Mongolian Academy of Sciences, Ulaanbaatar
- 11.20-11.40 *Report on phytochemical investigations of Mongolian medicinal plants*
Purevsuren Sodnomtseren
School of Pharmacy, Health Sciences University of Mongolia, Ulaanbaatar
Disan Gunbilig, Samdan Narantuya
Institute of Chemistry and Chemical Technology, Mongolian Academy of Sciences, Ulaanbaatar
Astrid Obmann, Sabine Glasl, Ingrid Werner
Oliver Donath, Katharina Mayr, Esther Wurm
Department of Pharmacognosy, University of Vienna
Armin Presser
Institute of Pharmaceutical Sciences, Karl-Franzens-University of Graz
- 11.40-12.00 *Biological effects of Mongolian medicinal plants*
Theresia Thalhammer
Center for Physiology and Pathophysiology, Medical University Vienna
Christa Kletter, Sabine Glasl, Nina Holec
Department of Pharmacognosy, University of Vienna
Damba Tsendayush, Batchimeg Usukhbayar
School of Traditional Medicine, Health Sciences University of Mongolia, Ulaanbaatar
- 12.00-13.30 Lunch break

13.30 – 14:00 *The healthcare system in the Republic of Mongolia*

Prof. Dr. Tserenkhuu Lkhagvasuren
Rector Health Sciences University of Mongolia

14:00 – 14:30 *Mobile telemedical units for improvement of rural healthcare in the Republic of Mongolia*

Prof.Dr. Michael Binder
Medizinische Universität Wien

14:30 – 14:45 Break

14:45 – 15:15 *Current situation of the study of Mongolian medicinal plants*

D.Enkhjargal
Head of Department of Pharmaceutical Chemistry and Pharmacognosy,
Health Sciences University of Mongolia

15:15 – 15:45 *Screening results of selected traditional medicinal plants from Mongolia for structure and anticancer activity by activity guided fractionation and spectroscopy.*

N.Tsevegsuren
National University of Mongolia

15:45 – 16:15 *Current situation of the diseases with natural foci in Mongolia and effects of some plants on their pathogenic bacteria*

Javzan Batkhuu
National University of Mongolia
